SL-ATP-FG

Synthetic Air Tool Lubricant - Food Grade

2083 is a Synthetic Air tool lubricant designed for maximum lubrication, cleanliness and protection on modern air tools. It removes deposits and cleans stuck air tools while providing outstanding service even in the most severe operating conditions. 2083 meets H1 requirements and is recommended for applications where incidental food contact is possible.

ATTRIBUTES

- Excellent protection against wear, rust and corrosion
- Outstanding Oxidative and thermal stability
- Very good carbon and varnish control
- Non-toxic/non-hazardous

TYPICAL LUBRICANT PROPERTIES

SL-ATP-FG Viscosities 2083-15	
Viscosity @ 40°C	14.7
Viscosity @ 100°C	3.3
Flash Point°C (°F)	177(350)
Pour Point°C(°F)	-28(-28)
Copper Corrosion, 24hr	1a
Rust Test	Pass
Demulsibility	40/40/0
