SL-BGGG-RF

Biodegradable Food Grade Grease

SL-BGGG-RF is a food-grade Aluminum Complex grease. It is made with synthetic base stocks and a special proprietary additive system that meets H1 requirements (lubricants with incidental food contact). This synergistic combination of additives and base fluids provides exceptional performance in even the most demanding applications. BGGG-RF also provides excellent thermal and oxidative resistance, resists water washout and, decomposition under wet conditions. Meets USDA H-1 requirements for incidental food contact and ISO 21469, and complies with requirements for FDA 21 CFR 178.3570.

ATTRIBUTES

- Excellent oxidative and thermal stability
- Excellent resistance against water contamination
- Outstanding materials compatibility
- Superior rust and corrosion control
- Very high flash point
- Reduced maintenance costs and downtime
- Non-toxic/non-hazardous

TYPICAL LUBRICANT PROPERTIES

SL-BGGG-RF Grades	BGG-RF
Penetration	
60 Stroks	280
10,000 Strokes	277
Dropping Point °F	545
Rust Test (D665)	Pass
Water Washout, % Loss @ 100 °F	.2
Four Ball EP (Weld) Kg	500
Load Wear Index Kg	51
Four Ball Wear, Scar mm	0.50
