# SL-PLL-FG

## Synthetic Picket Line Lubricant - Food Grade

SL-PLL-FG is a synthetic penetrating spray lubricant that meets H1 requirements for lubricants with incidental food contact. It cleans, frees stuck parts, and provides long-lasting, non-gumming lubrication.

In addition, SL-PLL-FG helps to protect metal parts from rust and corrosion.

### ATTRIBUTES

- Penetrates and cleans stuck parts
- High film strength
- Excellent rust control and water separation
- Removes rust and deposits
- Outstanding stability and Low volatility

### TYPICAL LUBRICANT PROPERTIES

<b>SL-PLL-FG Grades</b>	<b>6066</b>
Viscosity Index	119
Viscosity cSt @ 40°C	15.1
Viscosity cSt @ 100°C	3.2
Flash Point °F	295
Pour Point °F (°C)	-22
Color	<.5
Copper Corrosion, 24 Hr	1a
Rust Test:	Pass
Demulsibility, 130°F, 30 Min	40/40/0
