SL-Polar Bear-FG Super Low Temp Grease - Food Grade

SLFi POLAR BEAR Grease is a super high performance grease made with synthetic base fluids and special proprietary additives approved by the USDA for H-1 applications (lubricants with incidental food contact). This synergistic combination of additives and synthetic base fluids provides exceptional performance even in the most demanding applications.

SLFi POLAR BEAR Grease is NON-Toxic / NON-Hazardous with excellent thermal and oxidative resistance. It resists water washout and decomposition under wet conditions.

ATTRIBUTES

- Excellent Oxidation Stability
- Extremely High Film Strength
- USDA H-1
- Very Long Life Grease
- Energy Savings
- Excellent Rust & Corrosion Control
- Excellent Low Temperature Mobility

TYPICAL LUBRICANT PROPERTIES

SL-Polar Bear-FG Grades	2587
Penetration	
60 strokes	380
10,000 strikes	378
Dropping Point °F	530
Rust Test	Pass
Water washout, % Loss @ 100°F	.2
Four Ball EP (Weld) Kg	500
Load Wear Index Kg.	51
Four Ball Wear, Scar mm.	.50
Base Fluid Pour Point °F	-50
