TL650

Super High Temp Food Grade Chain Lubricant

TL650 Tortilla Lubricant Super High Temp Food Grade Chain Oil is a specially formulated synthetic lubricant for chain and other extreme applications. It can be applied by drip feeding, brushing and pre-soaking chains, rollers and oven pins. It is suitable for automatic lubrication systems.

TL650 will not smoke or carbonize under normal operating conditions. It is very resistant to dripping and washout. TL650 Tortilla Lubricant is approved for USDA H-1 applications (lubricants with incidental food contact) and fully complies with the requirements of 21 CFR 178.3570.

ATTRIBUTES

- Excellent demulsibility
- NSF H-1 compliant for foods with incidental food contact
- For use in extreme temperatures

TYPICAL LUBRICANT PROPERTIES

TL650 Grades	2500
Viscosity cSt @ 40°C	2750
Viscosity cSt @ 100°C	131
Viscosity Index	142
Flash Point °F (°C)	-25(-31)
Pour Point °F (°C)	530(276)
