SL-UP 380XC-FG

Synthetic Food Grade GCO Oven Oil with Cleaner

SL-UP 380XC-FG is specifically formulated for use in high-temperature applications. Its exceptional resistance against smoking and carbon buildup makes it the ideal lubricant for high-temperature baking operations. ISEL 2174-220 meets H1 requirements for applications with incidental food contact and fully complies with 21 CFR 178.3570.

ATTRIBUTES

- Resists smoking
- Excellent carbon and varnish control
- Excellent rust and corrosion control
- Excellent oxidative stability
- Low volatility
- Excellent film strength and anti-wear properties

TYPICAL LUBRICANT PROPERTIES

SL-UP 380XC-FG Grades	100	150	220
VI	115	108	109
Viscosity cSt @ 40°C	100	154	219
Viscosity cSt @ 100°C	12.3	16	20.5
Flash Point °F (°C)	502 (261)	505(263)	510 (265)
Demulsibility, 130°F, 30 Min	40/40/0	40/40/0	40/40/0
Copper Corrosion 24 Hr.	1a	1a	1a
Rust Test	Pass	Pass	Pass
